A vision conceptualised at the birth of Lavistone.

Designed for all in every aspect possible, our vast range of superior stone designs merge aesthetics and functionality within the context of the Australian lifestyle.

Elevate your space, inspire your dreams and turn your vision into a reality with Lavistone.

designed
for all.

GREENGUARD

Lavistone is home to the finest quality engineered stone in Australia.

With strict manufacturing standards and innovative designs, Lavistone achieved NSF and Greenguard certifications and come with a 10-year limited warranty.

A NEW FORMULATION

LOW SILICA CONTENT | 56% recycled materials

A revolutionary achievement that marks a significant shift towards sustainability and responsible source management. Our unwavering commitment to sustainability led us to the successful transition to a primary raw material of recycled materials.

This new formula proudly utilises solely the most refined and superior quality raw materials, ensuring unparalleled purity and excellence. Recycled materials are sourced and crushed into very fine particles, followed by a smart multi-filtration process to eliminate most impurities and unwanted iron contents from the material pile.

Style & design

All surfaces maintained great consistency in our manufacturing processes, ensuring our quality excellence and our ability to explore new designs remain intact.

Functionality

Our benchtops have everything a good surface needs. They are non-porous, non-toxic, require no sealants or wax to retain the hygiene standard, and are resistant to bacteria, mould and mildew.

Sustainability

This strategic shift has also empowered us to achieve great heights in sustainability:

- Repurposing used materials
- Reducing our carbon footprint
- Reducing energy consumption for new material production

The Future of Stones:

**where sustainability
meets style**

LS409 Sky Marble

GREYCIIOUS

LS500 | Polished Finish | 3210mm x 1610mm x 20mm

Whispering tales of nature's artistry, with a seamless blend of texture, colour, and form, this stone is a masterpiece. A stone design that showcases the power of meticulous craftsmanship and exemplifies the profound beauty that can be derived from honoring nature's treasures.

LA BIANCA

LS518 | Polished Finish | 3210mm x 1610mm x 20mm

Adorned with a symphony of subtly shifting tones, reminiscent of the mesmerising greys found in nature's palette. Resembling artistic brushstrokes, the remarkable formation of veins effortlessly mimics the essence of the natural world. Their tones and patterns echo the diversity and splendor found in the ever-evolving landscapes.

DIVERA

LS530 | Matt Finish | 3210mm x 1610mm x 20mm

Within this exquisite tapestry, veins elegantly weave and meander, each one serving as a testament to the authenticity and organic allure of the design. A breathtaking display of artistic irregularity, the natural aesthetic invites connection and appreciation of the majesty of Earth's creations.

ALBERO

LS501 | Polished Finish | 3210mm x 1610mm x 20mm

The soul of this design is deeply planted, the light grey veins branching out and spreading life across the white terrain, flourishing in any interior.

CLOUDUS

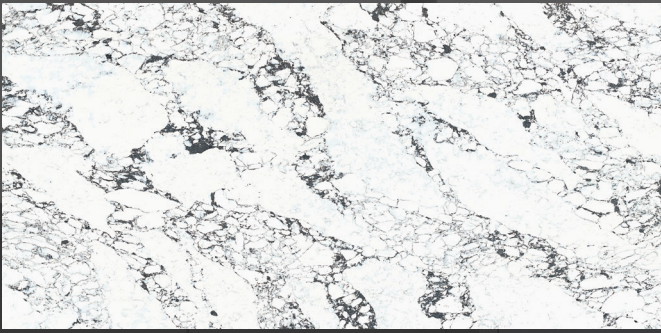

LS555 | Polished Finish | 3210mm x 1610mm x 20mm

Reminiscent of a cloudy horizon, dense with layer upon atmospheric layer. Bright but mysterious, transparent yet impenetrable, hazy whilst revealing glimpses of light.

BESCATO MAVRO

LS516 | Polished Finish | 3210mm x 1610mm x 20mm

This masterpiece encompasses the rustic beauty of nature. With its gentle white backdrop, the rawness comes in the form of a bold and vivid pattern, embracing earth's dark shadows whilst illuminating a daring composition that is hard to replicate.

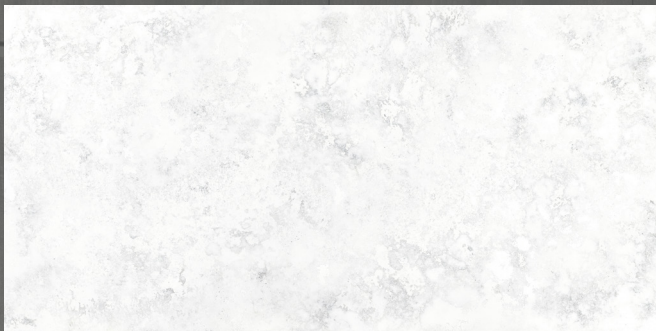

BESCATO GRIGIO

LS505 | Polished Finish | 3210mm x 1610mm x 20mm

The distinctive beauty of Bescato Grigio adds calmness and serenity unlike any other. Between its prominent yet harmonised soft grey veins and tranquil white backdrop, Bescato Grigio showcases the mellow side of nature.

AORAKI LAGO

LS533 | Textured/Polished Finish | 3210mm x 1610mm x 20mm

Inspired by a rugged land of ice and rock lying long and deep in New Zealand, Aoraki Lago strikes a balance between light and dark with a myriad of grey that gently softens the contrast. The exotic composition unveils the mystery, serenity and purity of ancient glaciers in the warmth of the modern abode.

PORTLAND

LS491 | Textured Finish | 3210mm x 1610mm x 20mm

Scattered across the dual tone background, the flowing veins, both subtle and dramatic, spark life whilst creating a striking surface.

FINATTO WHITE

LS498 | Polished Finish | 3210mm x 1610mm x 20mm

Inspired by the enduring beauty and sophistication of marble, the veins gracefully cascade, mirroring the intricate patterns woven into the tapestry of life. The veins awaken a sense of wonder as distinct layers gracefully intertwine, capturing the grandeur that resides within the heart of this awe-inspiring design and transporting you to a realm of timeless elegance.

let it

PURE CONCRETE

LS462 | Textured Finish | 3210mm x 1610mm x 20mm

This minimalist design delivers unadulterated modern sophistication. The simplicity encased in grey perfectly offsets an industrial urban interior.

AURICFINO

LS479 | Polished Finish | 3210mm x 1610mm x 20mm

Classically elegant, the flowing golden veins steaming cross the white base encapsulates versatility as warmth and cool are equally represented. The spirit of the renaissance resurges in this timeless design.

RIVER DRIFT

LS438 | Polished Finish | 3210mm x 1610mm x 20mm

The subtle light grey veins from this design are like exquisite shadows gracefully gliding against the dazzling white base, bringing to your home a perfect harmony of grace and strength.

VOLAKAS

LS466 | Polished Finish | 3210mm x 1610mm x 20mm

Taking its inspiration from the aesthetics of 'Volakas', gentle grey tones of diagonal veins stream through the smooth, warm white surface to create a stone that is both harmonious and contemporary.

OCEAN WAVE

LS477 | Polished Finish | 3210mm x 1610mm x 20mm

Peaceful, yet dynamic. Full of energy yet soul soothing. With a white base resembling bubbles of breaking waves and sandy veins flowing over its fluid surface, Ocean Wave emulates one of earth's most powerful and tranquil phenomena.

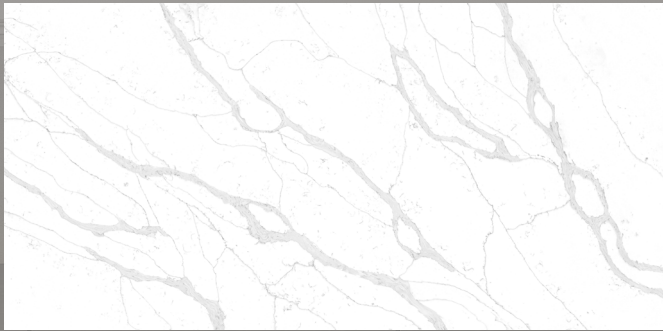

ATTICA

LS448 | Polished Finish | 3210mm x 1610mm x 20mm

Encapsulating the time-honoured design of Calacatta marble, Attica captivates through its dramatic yet refined veining with hints of gold on a radiant white background, adding a modern twist to a rare classic.

SKY MARBLE

LS409 | Polished Finish | 3210mm x 1610mm x 20mm

Sky Marble depicts the timeless allure of natural marble, with fluid handcrafted grey veining stretching across a luminous white facade. The colour is fully versatile that has endless possibilities to enhance any interior.

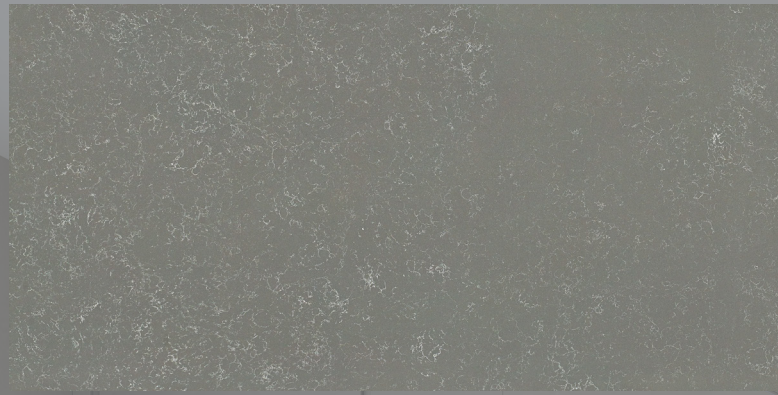

VALLON GREY

LS482 | Polished Finish | 3210mm x 1610mm x 20mm

Vallon Grey captures veining reminiscent of currents sparkling on an iron grey foundation. Edged white streams drastically crisscross the dark canvas, creating fine etchings in a multitude of sizes and shapes.

TRANQUIL GREY

LS333 | Polished Finish | 3210mm x 1610mm x 20mm

This majestic design offers a greenish grey background that sets the stage for downy veins that flow across the canvas. Tranquil grey evokes the serenity of nature and beckons us to the snowy dawn in winter.

Lavistone is home to the finest quality engineered stone in Australia. Our relentless pursuit of customer satisfaction is evidenced both by our discernment in raw material selection and commitment to research and development.

Certifications

Rest assured, Lavistone products have achieved NSF and Greenguard certifications.

Features of Engineered Stone

Non-porous surface

Easy to clean

High performance on stain resistant

High level of heat resistant

Scratch and chip resistant

Chemical resistant

CARE & MAINTENANCE

Lavistone products are easy to maintain. For everyday cleaning, simply use a damp cloth, with warm water and pH neutral cleaning products to make it look like new. Lavistone products does not require polishing or sealing to maintain a glossy finish and smooth surface, as it is a non-porous product.

Interior use only

Lavistone is designed for interior application only. Exterior applications of Lavistone products are not covered by Lavistone's 10-year Limited Warranty as exposure to direct sunlight or weather may result in a colour change or damage over time. Therefore, it is recommended that exposure to direct sunlight is avoided.

High level of heat resistance

Although Lavistone has high level of heat resistance, the surface can be damaged due to rapid heat changes or thermal shock. It is strongly recommended that hot pots, frypans or plates are placed on a heat resistant product such as a heat trivet or wooden chopping board rather than directly on the Lavistone surface.

Preparation of food

It is recommended that you avoid using sharp implements on the Lavistone surface to avoid damage. We recommend that food is prepared on appropriate cutting boards or plates rather directly on any Lavistone surface to avoid damage to both the surface of your benchtop and your kitchen implements or appliances.

Tough but not indestructible

Exposure to strong chemicals and solvents can permanently damage the Lavistone products' surface. Avoid using highly aggressive or corrosive cleaning agents such as oven cleaners that contain high alkaline (high pH) levels. Do not use products that contain trichloroethane or methylene chloride. Please rinse the surface immediately with water if the surface is exposed to any damaging products.

Matt and textured finish

Matt and textured finish products add extra dimension to the design. While they have the same high performance as polished collections, Lavistone's matt and textured finish designs have a lower polish level, which means more frequent cleaning may be required to maintain the appearance. We recommend that you clean stains and spills immediately, and only use a fresh or clean cloth that has been thoroughly washed as oil or other containments may be transferred to the surface.

LAVISTONE CREAM CLEANSER

Lavistone Cream Cleanser with micro particles is specially developed to maintain your stone surface, ensuring their optimal appearance and longevity.

How to use:

Apply a small amount of product onto a wet, non-scratch scrub. Gently wipe surface in a circular motion, avoiding excess pressure and spending too long on one spot. Use a microfiber cloth to remove excess suds, rinsing with warm water as required. When finished, clean surface with a clean dry cloth.

To purchase Lavistone Cream Cleanser, please visit our showroom or online store.

10-YEAR WARRANTY

Lavistone provides a 10-year limited warranty on manufacturing defects subject to the terms and conditions set out below. This warranty is available to the original purchasers of Lavistone products for a period of 10 years from the date the product is installed, provided the product has been used in an interior setting for residential or commercial projects. Lavistone warranty is limited to either repairing or replacing the product at its discretion as a result of a defect arising from the manufacture of the product, upon receipt of satisfactory proof of purchase and use of the product.

What is not covered in the warranty?

1. The warranty applies to the original purchasers of the product from Lavistone or its authorized resellers, and it is not transferable to any subsequent owners.
2. The warranty is for manufacturing defects only and does not cover any defect or damage arising from:
 - a. any modification, alteration not authorized in writing by Lavistone;
 - b. any use or dealing with the product or any work or alteration made by any party other than Lavistone;
 - c. misuse or inadequate maintenance including as recommended;
 - d. any use of the product for which the products are not intended.
3. The warranty does not cover any subsequent fabrication, installation and/or application of the slab.
4. The warranty does not apply where the product is installed by anyone other than a qualified and licensed stonemason or other tradesperson.
5. The warranty does not apply when the product has been removed, altered or moved from their original place of installation.
6. The warranty does not apply for damages and defects when the product is used for flooring or any exterior applications.
7. Applications in fireplaces are not covered in the warranty due to the way it is designed and the amount of heat output.
8. The warranty does not apply to any natural quartz surface variations in pattern, colour or shade within or on the surface of the slabs. Lavistone is made from natural materials, each slab is unique and variations do occur between batches.
9. The warranty does not apply to damages and/or defects resulting from or are contributed to by a failure to clean and maintain or inadequate cleaning and maintenance of the product in accordance with the Lavistone Care and Maintenance Guide.
10. The warranty does not apply to any damage and/or defect due to the product being mishandled or misuses including but not limited to excessive heat, excessive weight, chemicals and exterior application etc.
11. The warranty does not apply to any chips, cracks and scratches unless they were caused by manufacture defects. Chipping is not a material fault, as it is often caused by an external impact to the edge of the benchtop surface. Cracking is not a material defect. It is normally caused by inducing mechanical stress externally on the product after installation, such as excessive heat and excessive weight, or inadequate support under the surface.
12. When a product is replaced by Lavistone, subject to its absolute discretion, the 10-year limited warranty will run from the date of replacement.
13. To register the warranty, please fill out the Lavistone warranty form at www.lavistone.com.au with proof of the date of your purchase of the product. If you do not register this warranty within 60 days of purchase of the product, this warranty is void.
